

ECE 190, Fall 2009

Course Timeline

Due Date	Homework/Project/Exam
Wed Sep 2	Homework 1
Wed Sep 9	Homework 2
Wed Sep 16	Homework 3
Wed Sep 23	Project 1: LC-3 machine language
Wed Sep 30	Exam 1: 7pm - 9pm
Wed Oct 7	Project 2.1: assembly language programming
Wed Oct 14	Project 2.2: assembly language programming
Wed Oct 21	Project 3.1: C programming
Wed Oct 28	Project 3.2: C programming
Wed Nov 4	Exam 2: 7pm - 9pm
Wed Nov 11	Project 4.1: programming with arrays and pointers
Wed Nov 18	Project 4.2: programming with arrays and pointers
Wed Nov 25	Project 5.1: recursion and pointer-based structures
Wed Dec 2	Project 5.2: recursion and pointer-based structures
TBD	Final Exam: TBD

Homeworks are due on the dates indicated above by depositing the homework in a dropbox in Everitt Lab. They are due at 5pm promptly. We will post solutions sometime thereafter, so late homeworks will not be accepted.

Programming Projects are due on the dates indicated above at times indicated on the project descriptions (at 10 p.m. on Wednesdays). There will be an automated hand-in script for submitting your project. More details later.

Examination conflicts (if any) must be reported no less than one week before the exam in order to be accommodated. Please let us know as soon as you know about them, however.

Late policy: Projects can be turned up to 48 hours late with a late penalty of 15 points (out of 100 total) per 24 hour period. For example, turning in a project at 9:59pm on a Friday (actual due time 10pm Wednesday) will result in a 30 point late penalty. We will not accept late homeworks.
