

I/O Pins available on the DE2 Development Board

Pins used in the lab exercises are listed in the manual description for each experiment. A full listing of the devices and associated pins on the DE2 development board can be found in the DE2 User Manual, which can be found on the DE2 System CD in the file `\DE2_user_manual\DE2_UserManual.pdf`. The contents of the DE2 System CD can be downloaded at <http://www.altera.com/education/univ/materials/boards/unv-de2-board.html> if you do not have the CD handy (the link is near the bottom of the page; download size is 64 MB).

A spreadsheet containing all the pins listed here can also be found on the DE2 System CD, in the file `\DE2_lab_exercises\DE2_pin_assignments.csv`. You may use this file to easily copy and paste groups of assignments into the Assignment Editor.
