

ECE 498 AL
Spring 2007
“Bonus Day” Submission Form

“Each student will be granted five bonus days, which are no-questions-asked one-day extensions which may be applied to most assignments. For group assignments, each person in the group must expend a personal bonus day for the group's extension. Weekends and holidays are not considered to determine the number of days of extension, (so Friday-Monday would count as a single day of extension.) Multiple bonus days may be applied to any valid assignment. However, they may not be applied to the exam, final project design documents, final project presentations, or the final project demonstration.”

In accordance with class policy, I/we wish to expend ___ bonus days (each) for the assignment _____. I/We understand that the normal late submission policy will apply should this bonus day submission be found invalid according to the above criteria.
