

ECE 561: Detection and Estimation Theory  
Spring 2009  
Midterm Exam  
Issued: May 1st, 2009

May 1, 2009

GENERAL COMMENTS:

This is a short exam, due to the many deadlines you have at the moment. The problems are taken from M. Jordan's class, and you can consult his notes for additional reference, as well as the Now Text by Wainwright and Jordan.

The link is

<http://www.cs.berkeley.edu/~jordan/courses/281A-fall07/homework/home2.ps>  
and your task is to solve problems 1,2, and 4 only.
